

NEHRU SAI NUNNA

Full Stack Developer

@ nehrusai4@gmail.com <https://www.linkedin.com/in/nehru-sai>  Hyderabad, India

SUMMARY

Highly motivated and detail-oriented Backend Java Developer with a strong foundation in Java, Spring Boot, and RESTful API development. Proficient in building scalable and efficient server-side applications with a focus on performance and security. Skilled in database management using MySQL, version control with Git, and cloud-based deployment concepts. Strong problem-solving skills and a passion for learning new technologies. Eager to contribute to backend development projects and grow in a dynamic and collaborative environment.

EXPERIENCE

Sales Executive HR

BKP Homes  11/2023 - 2025  Hyderabad, India

- Developed and implemented HR policies to improve workplace efficiency and employee satisfaction
- Achieved sales targets consistently by developing tailored sales strategies
- Managed end-to-end sales processes, including prospecting, lead generation, and customer relationship management
- Facilitated employee engagement initiatives and coordinated team-building activities
- Assisted in payroll management and maintained HR records

EDUCATION

Bachelor of Technology in Electronics and Communications Engineering

JB Institute of Engineering and technology  Hyderabad, India

PROJECTS

IoT-Based Soldier Monitoring System

An IoT-based monitoring system designed for soldiers in the field to ensure their health and safety

- Real-time tracking of vital signs (heart rate, body temperature, etc.) to detect abnormalities and provide medical assistance quickly
- GPS-based system for monitoring the soldier's exact location, enabling commanders to make informed decisions during combat
- Sends alerts to the command center if a soldier's health is compromised or if they enter a restricted or dangerous zone
- Enables central command to oversee the well-being and location of all soldiers in the field from a single dashboard

NEHRU FARMS WEBSITE

https://nehrusai4.github.io/OrganicFarm_Ecommerce/

Self-Project | HTML, CSS

- Designed and developed a responsive website using HTML and CSS to showcase content with an intuitive user interface.
- Implemented structured layout and modern styling techniques for a visually appealing and user-friendly experience.
- Deployed the website online for accessibility and portfolio demonstration.
